SKILL

TECHNICAL SKILLS

- **PROGRAMMING LANGUAGES:** JAVASCRIPT (ES6+), TYPESCRIPT, HTML5, CSS3
- **FRAMEWORKS & LIBRARIES:** REACTJS, REDUX TOOLKIT, REACT ROUTER
- **STYLING:** TAILWIND CSS, RESPONSIVE DESIGN
- **VERSION CONTROL:** GIT, GITHUB
- **API & INTEGRATION:** RESTFUL APIS, AXIOS, POSTMAN
- **TOOLS:** VS CODE, FIGMA, VITE

SOFT SKILLS

- TEAMWORK AND COMMUNICATION SKILLS
- SELF-LEARNING MINDSET AND ADAPTABILITY
- ATTENTION TO DETAIL

ADDITIONAL INFORMATION

Passionate Front-End Developer with hands-on experience in React and TypeScript. Seeking an opportunity to build clean, responsive, and user-centric web applications while continuously learning modern web technologies and contributing effectively to a dynamic engineering team.

PROJECTS

InteliPath - Personalized Career Orientation & Learning Roadmap Platform for Software Engineering Students
05/2026 - 08/2026

Target Users: Students seeking personalized career guidance and learning roadmaps, along with Mentors and Counselors providing support.
Team Size: 4 members
Role: Front-End Developer

Tech Stack: React 19, TypeScript, Tailwind CSS v4, Redux Toolkit, Vite, React Flow, Frame, Axios, Git
Responsibilities & Achievements:

- Spearheaded the development of the user Onboarding flow and Landing Page, implementing complex and engaging UI animations using GSAP and Framer Motion.
- Designed and built the Counselor Dashboard, providing a comprehensive interface for counselors to manage student profiles, monitor progress, and submit feedback.
- Implemented a robust authentication system including Google OAuth2 and JWT, safeguarded by role-based route guards using React Router v7.
- Managed complex global state using Redux Toolkit and integrated RESTful APIs with Axios interceptors for seamless token and error handling.
- Improved application maintainability and rendering performance through component reusability and modern React practices.

Personal Developer Portfolio **08/2026 - Present**

Team Size: Personal Project
Role: Front-End Developer

- **Goal:** Designed and developed a modern, high-performance personal portfolio from scratch to showcase technical skills, focusing on premium visual experiences and fluid micro-interactions.
- **Technologies:** React 19, Vite, Tailwind CSS, Framer Motion, Three.js (React Three Fiber).
- **Achievements:**
- Engineered a fully responsive Single Page Application (SPA) featuring a custom "Dark Space Neon" aesthetic with glassmorphism UI.
- Implemented complex scroll-triggered animations, page transitions, and parallax effects using Framer Motion.
- Integrated interactive 3D elements using React Three Fiber to enhance user engagement and visual appeal.
